

Christopher Bou Saada

Salem, New Hampshire — (978)-996-0050 — Christopherbousaada@gmail.com

Education

University of Massachusetts Lowell

September 2026 – 2029

B.S. in Mechanical Engineering

Lowell, Massachusetts

Salem High School

2021 – 2025

High School Diploma

Salem, New Hampshire

Work Experience

Operations Intern

August 2024 – Present

Autotiv, Salem, New Hampshire

- Designed and implemented a custom sanding fixture to streamline part-processing operations and improve workflow efficiency.
- Identified production bottlenecks and developed process improvements to reduce manual processing time and improve consistency.
- Performed build-plate setup and slicing for 3D printing production.
- Performed quality inspection of 3D-printed parts with high attention to detail.
- Collaborated with management to develop and implement additional manufacturing process improvements.

Line Maintenance

Summer 2024

Lindt Chocolate, Stratham, New Hampshire

- Troubleshoot mechanical and operational issues on automated chocolate-bar packaging equipment.
- Performed preventive maintenance to maintain equipment reliability and minimize production downtime.
- Diagnosed equipment problems in a fast-paced manufacturing environment while maintaining safety and production standards.

Skills

CAD & Engineering: SolidWorks, Onshape, MATLAB, CAD Modeling, Mechanical Design, 3D Printing, Manufacturing Process Improvement

Manufacturing & Technical: Preventive Maintenance, Technical Diagnostics, Equipment Operation and Maintenance, Quality Inspection, Process Optimization, Troubleshooting

Professional: Problem Solving, Attention to Detail, Communication, Teamwork
